

II Chronicles

160923

II Chronicles reflects on the history of Judah from the United Kingdom of Solomon to Judah's 15th King, Josiah, after which Judah fell into decline. The author uses II Chronicles to trace the fortunes of the Davidic kingdom in Judah using as a yardstick Judah's devotion & dedication to the LORD. The kingdom & the people prospered while the people & leaders sought the LORD. When the leaders and (then consequently & eventually) the people faltered in their faith walk by failing to follow the Lord. then Judah, like Israel, was finally punished. The Southern Kingdom was exiled to Babylon.
