

Job

Job reveals insights into the reality of spiritual warfare and challenges the notion that suffering is always caused by sin & evil.

Even when life is

- so hard & harsh,
- so unfair & unjust

that we may question whether anything good can come from the pains, problems, and predicaments we're going through, the life of faith doesn't doubt

- the Goodness of God or
- the Sovereignty of God or even
- the love of God for Us

God is often

- working in the Background
- working Behind the Scenes

to accomplish results thru our worshipful & faithful response to demonstrate & validate not only God's Glory but also

God's Faith in Us!
